## IFIP TC3 Forms New Working Group on AI in Education

IFIP TC3 has created a new Working Group – WG3.9 (‘Artificial Intelligence in Education’). According to TC3 Chair, Professor Don Passey, “This topic is clearly of wide contemporary interest and is a topic that’s unlikely to disappear from either development or interest within the next 10 or more years. With growing interest and concern in [...]

### **Australia's Social Media Age Limit Being Copied Overseas**

Banning under-16s from social media has been contemplated worldwide and legally blocked in many jurisdictions, but the success of Australia's laws is emboldening overseas legislators to keep trying as concern over social media harms grows. New Zealand, for its part, has taken up Australia's cause, with Prime Minister Christopher Luxon this month announcing a draft law [...]
