News from IFIP members, Technical Committees and the ICT sector around the world

ACM Names 2023 Distinguished Members

ACM has named 52 Distinguished Members for significant contributions. All of the 2023 inductees are longstanding ACM Members and were selected by their peers for work that has advanced computing, fostered innovation across various fields and improved computer science education. The 2023 ACM Distinguished Members work at leading universities, corporations and research institutions in Australia, [...] The post ACM Names 2023 Distinguished Members appeared first on IFIP News.

BCS Calls for Urgent Review of “Computer is Always Right” Law

The law assuming reliability of computer evidence – and under which the Post Office prosecuted hundreds of staff – must be reviewed to avoid future miscarriages of justice, according to BCS, The Chartered Institute for IT. BCS is calling for an end to the legal presumption that computer systems data are always correct, with no [...] The post BCS Calls for Urgent Review of “Computer is Always Right” Law appeared first on IFIP News.
