Proceedings of the 17th International Symposium on Operational Research in Slovenia, SOR'23, ki so ga uredili izr. prof. dr. Samo Drobne, prof. dr. Lidija Zadnik Stirn, prof. dr. Mirjana Kljajić Borštner, izr. prof. dr. Janez Povh in prof. dr. Janez Žerovnik, ISBN 978-961-6165-61-7 (PDF), COBISS SI-ID 164343555 in obsega 444 strani ter dodatek s seznamom vseh 198 avtorjev (19 strani), je letos prvič izdan samo v elektronski različici in je objavljen na spletni strani SDI: <https://www.drustvo-informatika.si/sekcije-drustva?stran=publikacije-sor>. Zbornik bo eferiran v: ISI (Index to Scientific & Technical Proceedings on CD-ROM and ISI/ISTP&B online database), Current Mathematical Publications, Mathematical Review, MathSci, Zentralblatt für Mathematic / Mathematics Abstracts, MATH on STN International, CompactMath, INSPEC, Journal of Economic Literature.

Prispevki v zborniku del so razdeljeni v šestnajst poglavij (številka v oklepaju pomeni število prispevkov v sekciji): Plenary Lectures (5); osem posebnih sekcij: Applications of OR in Agricultural Economics (8), Applications of OR in Industry and Mechanical Engineering (4), Artificial Intelligence in Business: Obstacles and Perspectives (4), Discrete Optimization Methods and Models for Real-world Problem Domain (15), Game Theory (5), Industry & Society 5.0: Optimization and Learning in Human and Industrial Environments (9), Social Innovations in Ageing Studies Supported by OR Models (7), Unravelling the Business Models of Sharing Economy by Applying Methods of OR and Statistics (3), in šest sekcij: Econometric Models and Statistics (4), Human Resources (5), Finance and Investments (8), Location and Transport, Graphs and their Applications (7), Mathematical Programming and Optimization (5), and Multi-Criteria Decision-Making (7).

Vsebina in struktura prispevkov je bila, podobno kot zadnja leta, tudi tokrat vidno usmerjena v korist problemskim sklopom, čeprav je bilo tudi veliko zelo kakovostnih metodoloških prispevkov. Opazno je, da se operacijske raziskave vse bolj vključujejo v neposredno reševanje gospodarskih težav - navkljub velikemu številu udeležencev, ki so običajno avtorji, zlasti teoretičnih prispevkov, z univerz in raziskovalnih inštitutov. Nadalje je treba poudariti, da je bilo med avtorji veliko predstavnikov mlajše generacije, kar pomeni, da imajo operacijske raziskave tudi, kar se tiče kadrov, svetlo prihodnost.

Proceedings of the 17th International Symposium on Operational Research in Slovenia, SOR'23, je dosegljiv v okviru spletnih strani SDI: <https://www.drustvo-informatika.si/sekcije-drustva?stran=publikacije-sor>, kjer so tudi zborniki prejšnjih konferenc: SOR'19, SOR'17, SOR'15, SOR'13, SOR'11, SOR'09, SOR'07 in SOR'05.

Poleg zbornika Proceedings of the 17th International Symposium on Operational Research in Slovenia bodo rezultat SOR'23 tudi posebne številke znanstvenih revij s faktorjem vpliva: CEJOR (Central European Journal of Operations Research) z gostujočimi uredniki Janez Povh, Lidija Zadnik Stirn in

Janez Žerovnik, Mathematics z gostujočima urednikoma Mirjano Kljajić Borštnar in Črtomirjem Rozmanom, ter BSRJ (Business Systems Research Journal), kjer so gostujoči uredniki Samo Drobne, Lidija Zadnik Stirn in Berislav Žmuk (Univerza v Zagrebu). Vabila za oddajo prispevkov v posebnih številkah CEJOR, Mathematics in BSRJ so na <https://sor.fov.um.si/publications/> pod Call for papers.

V okviru SOR'23 smo pozornost posvetili tudi 60-letnici operacijskih raziskav v Sloveniji in 30-letnici sekcije za operacijske raziskave (SDI-SOR oz. v angleščini SSI-SOR). Daljši članek o zgodovini operacijskih raziskav v Sloveniji, o 30-letnjem delovanju sekcije SDI-SOR, predvsem o njenem poslanstvu, publikacijah (monografijah, posebnih številkah mednarodnih revij in zbornikih) in organizaciji mednarodnih simpozijev v Sloveniji je objavljen v zborniku del SOR'23 (Proceedings of the 17th International Symposium on Operational Research in Slovenia, SOR'23, str. VII-XXII). Nadalje smo se na SOR'23 spomnili tudi ustanoviteljev SDI-SOR, predvsem prof. dr. Janeza Grada in prof. ddr. Viljema Rupnika ob njuni 90-letnici (Proceedings of the 17th International Symposium on Operational Research in Slovenia, SOR'23, str. XXIII-XXX).

Na SOR'23 smo izvedli tudi dva družabna dogodka: prvi dan popoldne v obliki ekskurzije v Kranj (voden ogled podzemlja in starega mestnega jedra) ter svečane večerje ob 30. letnici SDI-SOR (gostišče Lectar v Radovljici), drugi dan pa s klavirskim koncertom odličnega pianista, Prof. dr. Tadeusz Trzaskalik, v hotelu Bled Rose.

Na koncu lahko ugotovimo, da je SOR'23, ki je tokrat obeležil že 17. izvedbo, presegel naša pričakovanja tako v strokovnem kot tudi moralnem pogledu. Velika udeležba tujih strokovnjakov je potrdila zaupanje v naše strokovne sile, obenem pa nudila domačim strokovnjakom priložnost, da se seznanijo z dosežki, ki razvitemu svetu pomenijo generator njihove diferencialne rente.

SOR'23 so finančno podprli Mathematics (MDPI), EURO (Association of European Operational Research Societies), EuroCC2 (Association of European Operational Research Societies), Excellerat P2 (The European Centre of Excellence for Engineering Applications), Rudolfovo (The Scientific and Technological Centre in Novo Mesto), and L7-3188 (ARIS Research project: Hierarchical design and financing of social infrastructure of smart silver villages).

Še več detajlov o samem simpoziju lahko dobite na spletnih straneh SOR'23 (<https://sor.fov.um.si/>).
